Feb 26	Seminar 3: Education ,job & Business Opportunities in India & International market
Mar 5	Idea Pitching

Feedback from student

Actually, at first I was really nervous, because every Indian speaks Indian English. It is really hard to hear. But Ms.Viji explained the same things many times to me, and that made me understand well. Also other experts were so kind. Now I am not nervous and scared! Now I could know my new good point. I also understood the importance of problem statements and I learnt how to solve the real real problem statements.

Ms. Misato Kita, Kindai University, Osaka, Japan
